

## Micro Focus Security Fortify Product Announcement

### Version 18.10

Micro Focus Security Fortify is pleased to announce the immediate availability of Fortify Software Security Center (SSC) and Fortify Static Code Analyzer (SCA) 18.10, WebInspect and WebInspect Enterprise 18.10.

### Fortify Software Security Center (SSC) & Fortify Static Code Analyzer (SCA) & Applications 18.10 Product Announcement

The Fortify SSC and SCA 18.10 release emphasizes the evolving needs to expand support for new programming languages, enhancing existing languages and support for new constructs and frameworks. The 18.10 release builds on our vision of integration and agility while continuing to provide market leadership with key enterprise enhancements that focus on improvements in speed, automation, extensibility and usability.

#### *Fortify Static Code Analyzer (SCA) Key Highlights*

- Enhanced .NET support with Xamarin and Azure Projects framework
- JavaScript ECMAScript 2016 and 2017 support has been added
- Swift 4 and XCode 9.2 support
- Continued Improvements in Node.js Support
- Python 3 support has been added
- Scala 2.13 and Scala Play framework support has been added
- Performance has been improved for scanning Python projects

#### *Fortify Software Security Center (SSC) and Tools Key Highlights*

- Security Assistant for Microsoft Visual Studio 2017 ([VS marketplace](#))
- Fortify plugin for Bamboo ([Atlassian marketplace](#))
- Audit Assistant Auto-Apply Predictions Feature
- Scalability: Database (Oracle) Partitioning
- Micro Focus Rebrand and Modern User Interface Refresh
- Token Management
- Consolidated Proxy Settings
- Improved Password Strength
- Bug Tracker Plugin Redesign
- JavaScript Sandbox API Utility ([github.com/fortify](https://github.com/fortify))

### WebInspect & WebInspect Enterprise 18.10 Product Announcements

Fortify WebInspect and Fortify WebInspect Enterprise 18.10 release emphasizes automation capabilities, integrating our dynamic technology as part of an organizations ecosystem, and improving the user experience.

Fortify WebInspect customers can upgrade to the latest version beginning on Tuesday, May 29, 2017. WebInspect can be upgraded to the latest release using SmartUpdate service.

#### *Fortify WebInspect 18.10 Key Highlights*

- Multi-User Login Macro (Technical Preview) provides faster scan times with our multi-user login solution. To preview the multi-user login macro, please contact Micro Focus Customer Support.
- Standalone Proxy Server for WebInspect Enterprise helps automate workflows via traffic capture - download via the Fortify Marketplace
- REST API Updates for WebInspect Enterprise
