

### Updating connection string on Admin Server

Could not raise system config on wbv-pfc-p0005.systems.private : -  
 2146233079 : Client found response content type of 'text/html; charset=utf-  
 8', but expected 'text/xml'.  
 The request failed with the error message:  
 --  
 Server Error in '/' Application.

## Configuration Error

**Description:** An error occurred during the processing of a configuration file required to service this request. Please review the specific error details below and modify your configuration file appropriately.

**Parser Error Message:** It is an error to use a section registered as

allowDefinition='MachineToApplication' beyond application level. This error can be caused by a virtual directory not being configured as an application in IIS.

**Source Error:**

```
Line 19:           ASP.NET to identify an incoming user.  
Line 20:         -->  
Line 21:  
Line 22:  
--.
```
